## Copytalk

Designed specifically for the insurance and financial services industry, Copytalk's Mobile Scribe is a mobile dictation service that allows you to document client meetings faster and easier than ever before. After meeting with a client or prospect, simply pick up your phone, dial Copytalk and dictate the details of your meeting. Within a few hours, your transcribed text is delivered via email or secure download. For less than the cost of a daily cup of coffee, you can spend less time on paperwork and more time serving your clients and growing your business.

“ I use Copytalk and find it to be an excellent, affordable service. My notes are more detailed and complete since I dictate them immediately after each client meeting. My staff no longer types my notes, so they are free to work on more productive activities. Copytalk makes a real difference in my business and I encourage my colleagues to give it a try – see how it can help you become more organized and productive. ”

— Rob Eddy, Jr. CLU, ChFC, REBC, NAIFA Member, Lafayette, LA
