The 8th Habit: From Effectiveness to Greatness

Featuring Dr. Stephen R. Covey

The world has changed profoundly since the publication of Dr. Stephen R. Covey's *The 7 Habits of Highly Effective People*. Now the challenges and complexity we face in our personal and professional lives and relationships are of a different order and magnitude. Surviving, thriving, innovating, excelling and leading in this new reality requires a new mindset, a new skill-set, a new toolset — a new habit.

In this presentation based on his best-selling book, Dr. Covey provides you with a roadmap towards the 8th habit, helping you find your voice so you can help others find theirs.
